ProQuip's iconic brand was founded in 1981, in North Berwick, East Lothian, Scotland.

It illustrates rain flowing off the feathers on a duck's back.

Effortless waterproofing, softness, quietness and fluidity of motion have always underpinned the design of our high-performance golf weatherwear.

We don't licence patented waterproof fabrics or imitate ideas from the world of outdoor pursuits.

Our fabric technologies are exclusive to ProQuip and sourced specifically to meet the needs and demands of playing golf, anywhere, in any weather.

ProQuip's 2024/25 collection is a complete golf apparel range, for men and women, featuring technical fabric polo shirts, trousers, shorts and mid-layers, right through to our award-winning weatherwear.

ProQuip is the trusted distribution partner for Zerofit Sports and Ashworth Golf in the UK and Ireland and you can read about the latest developments with both brands on page 3 and browse a mini Zerofit range guide on pages 39-45.

Play more golf and Stay Ahead of the Game.

Russell Brooks FCCA  
General Manager, ProQuip Golf

# WHY PROQUIP?

UNSTOPPABLE ALL-WEATHER GOLF

Our clothing range performs best as a layering system, from compression base layers to mid-layers and highly breathable water and windproof outer shells.

Every garment is designed to work in harmony with each other, allowing air to escape and move between the layers and preventing the build-up of cold sweat that reduces core body temperature and leaves you feeling cold.

**BASE LAYER**  
FOR CONSISTENT  
TEMPERATURE  
REGULATION

Find the *NEW*  
ZeroFit Cold Skin  
on page 44-45

**NEW**

**MID LAYER**  
FOR HIGH TECH  
PERFORMANCE  
AND TEMPERATURE  
CONTROL

**OUTER LAYER**  
OUTER LAYER,  
WATERPROOF,  
WINDPROOF AND  
UV PROTECTED

## GOLF WEAR BUILT TO LAST

- ProQuip uses Hot-Melt technology to seal seams and weld fabrics to provide total long-lasting waterproofing
- ProQuip has used only five fabric suppliers in its 40 plus year history
- Every ProQuip garment must pass a five-stage testing process before being passed for production
- ProQuip has one of the lowest return rates in the golf industry, on average less than 0.5% of our garments are returned annually.

## ASHWORTH GOLF IN 2024

Ashworth, one of golf's most iconic apparel brands, continues to re-establish its profile in the UK and Ireland; following ProQuip's appointment as an exclusive distribution partner.

ProQuip is now stocking Ashworth polo shirts, mid-layers, hoodies, quilts, gilets, shorts, trousers and outerwear.

Russell Brooks, General Manager at ProQuip, said:

*"Ashworth is an iconic clothing brand, has a high level of shelf appeal for consumers in-store and is a compelling cresting choice for resorts, destinations and high-profile courses."*

Ashworth's 2024/5 product range features modern-day versions of its original cotton polos, combining technical fabrics and natural fibres.

Ashworth is worn on tour by PGA Champions Tour player Fred Couples and two-time PGA Tour winner Tom Hoge.

Retailers interested in stocking the Californian golf and lifestyle clothier can browse the 2024 collection at [www.ashworthgolf.uk](http://www.ashworthgolf.uk) and download its latest UK & Ireland brochure.

To place an order, email: [info@proquipgolf.net](mailto:info@proquipgolf.net) or call: 01228 210 551.

## PROQUIP BACKING GRASSROOTS GOLF

SUPPORTING AMATEUR, JUNIOR, DISABILITY AND PROFESSIONAL GOLF IN 2024/5

ProQuip is proud to support golf at grassroots level, by sponsoring events and individuals within amateur, professional and disability golf.

ProQuip continues as a lead sponsor of the Golf in Scotland Series Event, (GIS) for the eighth consecutive year.

Stevie Moir, Founder of the Golf in Scotland Series Events, said:

*"ProQuip has been a great addition to our events and we are proud to have them as partners. The quality of ProQuip products is second to none."*

GIS is in its 12th year staging multi-format amateur golf events at leading courses including Turnberry, Kingsbarns and Dumbarnie Links. More than 200 golfers have won ProQuip and Zerofit prizes during the series to date.

In Junior Golf, ProQuip is proud to sponsor the FloGas Irish Junior Open Tour, Europe's largest junior golf tour, with 28 events running throughout 2024.

In disability golf, ProQuip outfits EDGA golfer Iain Millar with rainwear and apparel, as well as supporting his work raising awareness of disability golf with his friends at Broken Playaz.

Iain and the Broken Playaz play EDGA (European Disabled Golf Association) and Disabled Golf Association (DGA) events, as well as supporting charities and working with schools.

PGA Professionals Ryan O'Neill and Andrew Scrimshaw continue as playing ambassadors, wearing ProQuip clothing in PGA regional and national events, pro-am golf and on the minor tours circuit.

## ZEROFIT EXPANDS PRODUCT LINES FOR SS AND AW24

Zerofit, the Japanese sports technology brand specialising in elite sports and outdoor pursuits, has introduced new base layers, leggings, thermal socks and performance hoodies to the UK and Ireland golf market for 2024.

ProQuip is the wholesale distributor of Zerofit clothing in the UK and Ireland and will stock new Cold Skin warm weather baselayers and leggings in 2024, alongside Zerofit Ultimate Heatrub and Move baselayers, bobble hats, neck warmers and accessories.

Russell Brooks, General Manager of ProQuip Golf, said:

*"Zerofit base layers are some of the best garments we've encountered in 40 years manufacturing and distributing weatherwear and apparel for golf."*

To view the Zerofit product range, see pages 39 to 45

# CRESTED CLOTHING

EMBROIDERED APPAREL FOR GOLF CLUBS AND CORPORATE ENTERTAINMENT

ProQuip offers a fast and reliable cresting service to golf retailers and companies who wish to stock or purchase club crested or branded waterproofs, wind garments, mid-layers and polo shirts.

From digital origination, through to embroidery and seam sealing, our service enables you to transform a ProQuip garment into a unique and personalised piece of golf apparel.

Our expert embroiders can offer full colour, tone on tone or tonal logos and position cresting and branding in a variety of positions including chest, sleeves, and the rear of the neck on jackets.

For more information call our head office on +44(0) 1228 210551 or email [info@proquipgolf.net](mailto:info@proquipgolf.net)

## NEW EMBROIDERY PRINTING

ProQuip is now offering embroidery printing services alongside traditional machine stitch embroidery.

Using Wilcom ES (embroidery studio) design software, our embroiderers can now print a 3D effect club or corporate crest directly onto an outer fabric.

This has clear benefits for cresting waterproofs and water-repellent jackets because it allows us to crest garments without having to reseal areas that would have been stitched using traditional methods.

Embroidery printing can be used on upper and lower sleeves, panels and chest placements, as well as shorts and trousers.

# ACCESSORIES & BASELAYERS

STAY AHEAD OF THE GAME

ACCESSORIES & BASE LAYERS

# ZEROFIT

## THE KING OF BASELAYERS®

Zerofit has quickly established itself as a world leader in baselayer technology for sports and outdoor living. Its all-weather products are worn in the mountains, at sea, on ski slopes, golf courses and in sports stadiums.

### Zerofit HeatRub Ultimate

At the heart of Zerofit's rapid growth is **Heatrub Ultimate Baselayer technology**.

Independently tested at the Boken Institute in Japan, Heatrub Ultimate is proven to be five times warmer than a standard baselayer and twice as warm as a regular sweater.

The Heatrub Ultimate baselayer - the **World's Warmest Baselayer** - is joined this year by **Ultimate Leggings**, offering the same heat-generating thermal properties as the top; in a unisex design suitable for men and women.

Perfect for cold weather golf, Ultimate leggings are also ideal for off-course wear including hiking, running, skiing, spectating at outdoor sports and gardening.

For complete comfort from head to toe, new **Heatrub Ultimate socks** are engineered using innovative heat thread technology which cocoons the feet with incredible warmth.

The socks are available now in standard size. A knee-length version will be available to order in Autumn 2024.

### Zerofit HeatRub Move

In milder conditions, Zerofit's Heatrub Move Baselayer offers a winning combination of core warmth combined with temperature regulation and moisture wicking.

As exercise intensifies, Move keeps your body at optimal temperature for high performance.

Zerofit's popular Move baselayer can now be matched with **Move Leggings**, available from AW24, and the **Heatrub Performance Move Hoodie**.

Both are manufactured from the same polypropylene construction and hollow polyester shell used in Move baselayers, providing warmth, insulation, moisture-wicking and a comfortable fit suited to all-sports activity and outdoor exercise.

**Move baselayer** is also now available in dayglo yellow, for a youthful fresh look.

### Zerofit Cold Skin

In the warmer Spring and Summer months, golfers can now benefit from the cooling effect, UV protection and anti-bacterial, anti-odour properties of Zerofit **Cold Skin baselayers and leggings**.

'Cold-to-Touch' (CTT) Technology absorbs heat and spreads it over the body's surface, keeping you cool, dry and comfortable in temperatures up to 40° Celsius.

Independently Q-max tested at the Kaken Test Centre in Japan, this product has been proven to be three times colder than standard competitor products.

ZEROFIT SPORTS

## EXPANDED PRODUCT LINES FOR 2024/5

**Heatrub Ultimate leggings**, socks and neckwarmers are among Zerofit's bestselling products, designed for when the temperatures dip to -10° Celsius (14° Fahrenheit).

ProQuip is an official distributor of Zerofit products in the UK and Ireland.

Browse Zerofit's Ultimate, Move and Cold Skin technologies, along with cold-weather accessories, in our mini range guide from p.39 to p.45.

DESIGNED IN JAPAN MADE FOR THE OUTDOOR WORLD

# HEATRUB ULTIMATE

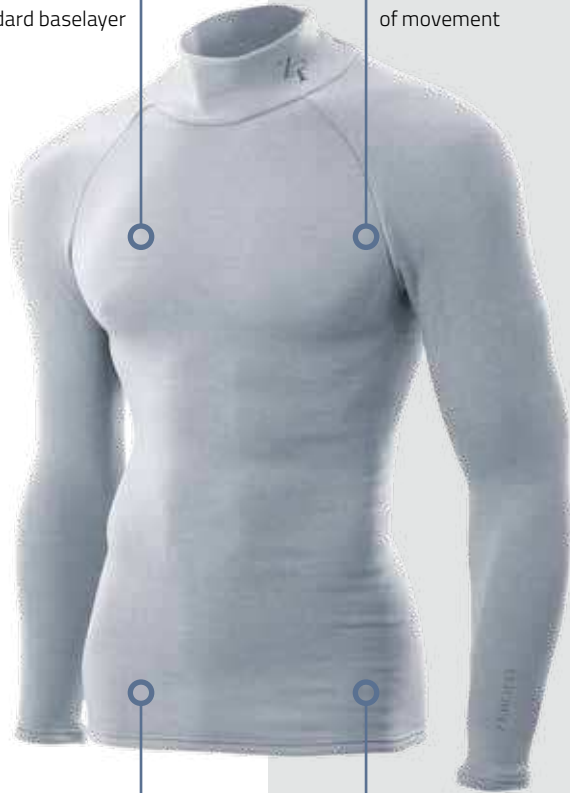

THE KING OF BASELAYERS®

ZEROFIT SPORTS

## HEATRUB ULTIMATE BASELAYER TECHNOLOGY

Five times as  
warm as a  
standard baselayer

Incredible stretch,  
no restriction  
of movement

Instant warmth,  
no need for multiple  
additional layers

Temperature  
regulation and  
'All Day Warmth'

# HEATRUB MOVE

THE KING OF BASELAYERS®

ZEROFIT SPORTS

## HEATRUB MOVE BASELAYER TECHNOLOGY

Featuring 'labo'  
fabric technology

High neck for  
comfort and  
protection

Constructed with 45% polypropylene,  
a material far lighter than polyester,  
nylon and water, providing more warmth,  
less weight and retaining heat for longer

Maximum heat and  
zero sweat as labo  
transfers moisture

The award-winning  
Zerofit Heatrub Move  
is the most versatile  
baselayer in the entire  
Zerofit collection

### Move baselayer and Leggings Features and Benefits

- Featuring 'labo' fabric technology
- Maximum heat and zero sweat as labo transfers moisture from skin to garment outer shell
- Constructed with 45% polypropylene, a material far lighter than polyester, nylon and water, providing more warmth, less weight and retaining heat for longer
- High neck for comfort and protection

Sizes: XS-S-M-L-XL-XXL

**New** Performance Move Hoodie

The Heatrub Performance Move Hoodie is one of the most versatile products in the entire ZeroFit family

**Heatrub Performance Move Hoodie Features and Benefits**

- The two-layer construction provides athletes with a superior feeling of warmth
- An incredibly versatile product, the Heatrub Performance Move Hoodie is perfect as an outer layer for many activities, including watching sport, walking and gardening
- Polypropylene fibres retain more heat for a longer period of time to keep the wearer dry and warm

**Unisex sizes:** S-M-L-XL-XXL

# NEW HEATRUB COLD SKIN

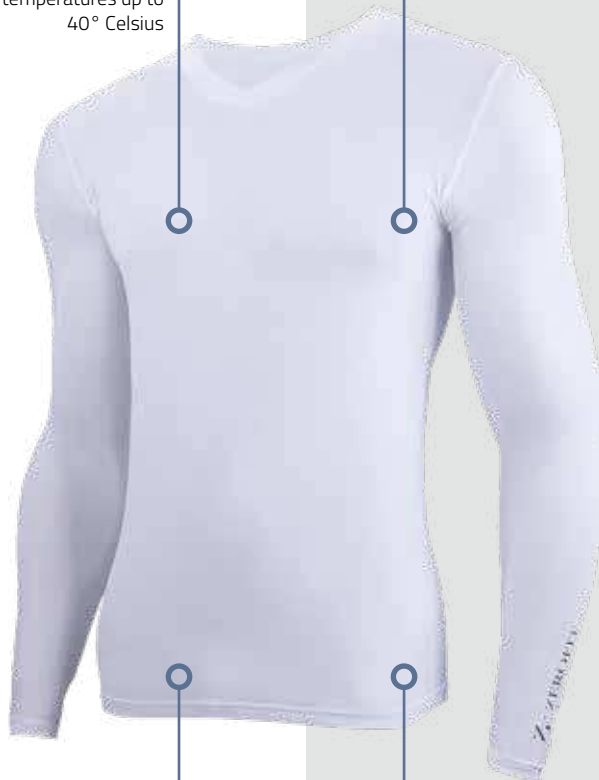

THE KING OF BASELAYERS®

ZEROFIT SPORTS

## NEW HEATRUB COLD SKIN BASELAYER TECHNOLOGY

Cold from the moment  
it touches your skin,  
in temperatures up to  
40° Celsius

The thin and lightweight  
fabric disperses sweat rapidly

Baselayer technology utilises innovative  
fibres that are engineered to absorb heat  
and spread it over the body surface

Protection from the sun's  
harmful rays with the garment  
having a maximum UPF50+ rating

New Cold Skin White

New Cold Skin Black

Cold Skin – proven to be three times colder than a standard competitor's baselayer

### Zerofit Cold Skin baselayer Features and Benefits

- Independently tested and proven to be three times colder than a standard competitor product
- Cold from the moment it touches your skin, in temperatures up to 40° Celsius
- Baselayer technology utilises innovative fibres that are engineered to absorb heat and spread it over the body surface
- The thin and lightweight fabric disperses sweat rapidly creating a quick dry feeling without stress on the skin or causing a restriction of movement
- Protection from the sun's harmful rays has also been factored into the Cold Skin, with the garment having a maximum UPF50+ rating, giving athletes additional peace of mind while competing or training

Sizes: S-M-L-XL-XXL

### IMPORTANT INFORMATION ON WASHING WATERPROOF AND KNITWEAR GARMENTS

The use of Biological washing powder will damage the water repellency (and will impact on garment warranty), and therefore we would always recommend non biological washing powder for use with all our products and a low temperature 30 degree wash.

2024/25 COLLECTIONS
